CLEAR OUT THE

CHEMICALS!

A sparkling clean home doesn't require harsh chemicals and toxic ingredients. In fact, with so many under-regulated and misleading household cleaning products containing toxic ingredients on the market, knowing what is safe and what isn't can be overwhelming.

Young Living is committed to keeping your home safe from toxic chemicals with our line of naturally derived Thieves® household cleaning products.

Whenever you use these products, you'll feel great knowing they're safe to use around everyone in the family, including kids and pets.

ONE LEGENDARY FORMULA

SO MANY APPLICATIONS

Young Living's proprietary Thieves® essential oil blend was inspired by the legend of four 15th-century French thieves. They formulated and wore a special aromatic combination of clove, rosemary and other botanicals that they believed provided protection while they were robbing.

French authorities recognised that there was such value in this mixture that upon the thieves' capture, they received a more merciful punishment on the condition that they divulge the ingredients in their secret formula.

Young Living's one-of-a-kind Thieves® blend can be found in all of our Thieves® products. Featuring the powerful essential oils Lemon, Clove, Cinnamon Bark, Eucalyptus Radiata and Rosemary, Thieves® offers a spicy, welcoming aroma everywhere it's used. Possibly our most versatile and beloved blend, Thieves® is an important ingredient in our home cleaning and personal care products, replacing harsh chemicals with pure, therapeutic-grade essential oils and other naturally derived ingredients.

From cleaning surfaces in your home to cleaning your clothes, dishes, hands and teeth, Thieves® is as versatile as it is powerful. With so many products - each with a myriad of uses - we're proud to do our part in making the world a little cleaner, one Thieves® application at a time.

“We used Thieves® to wash all the wood trim on the outside of our home. We put water in a large spray bottle with 4-5 capfuls of Thieves® Household Cleaner. It cleaned up beautifully and looked like we had repainted all the trim! The best part: there were no dangerous fumes, the rags were clean and fragrant, and we tossed out the water knowing it would not harm the grass.”
